## Technical Specification Sheet

**Fyfield Engineered Smoked Oak Brushed & Oiled Wood Flooring  
(190mm x 14/3mm)**

### Product Overview

The Fyfield Engineered Smoked Oak flooring offers a rich and characterful appearance, enhanced by a brushed and oiled finish that highlights the depth and texture of the wood. The smoked tone introduces a warmer, deeper colour variation, making it a striking choice for both contemporary and traditional interiors.

With its engineered construction and wide 190mm boards, this flooring provides a balance of durability and stability.

### Construction Details

This flooring features a multi-layer engineered construction, designed to provide strength and stability.

- Top layer: 3mm solid oak veneer
- Core: Cross-layered timber or plywood construction
- Base layer: Stabilising backing layer

This layered structure helps minimise movement caused by changes in temperature and humidity, making it a reliable and practical choice for modern homes.

### Finish & Surface

The brushed and oiled finish enhances both the texture and colour of the smoked oak.

- Brushing highlights the grain and adds subtle texture
- Oil penetrates the wood for a natural, matte appearance
- The smoked treatment deepens the tone, creating a warmer look

This creates a floor that feels natural, textured, and full of character.

## Key Specifications

Specification	Details
Product Code	190143SMBO1
Flooring Type	Engineered Wood
Wood Species	Oak (Smoked)
Finish	Brushed & Oiled
Thickness	14mm
Wear Layer	3mm Solid Oak Top Layer
Board Width	190mm
Board Length	Mixed lengths (300mm – 1200mm)
Edge Detail	Micro Bevel
Grade	Natural Grade
Profile	Tongue & Groove
Installation Method	Floating (glued joints), Glue-Down or Nail-Down
Pack Coverage	1.83 m <sup>2</sup> per pack
Underfloor Heating	Suitable (see guidelines below)
Surface Texture	Brushed
Finish Type	Natural Oil
Room Suitability	Living Areas, Bedrooms, Hallways
Commercial Use	Light Commercial

## Board Style & Appearance

The 190mm wide boards create a spacious and seamless look, helping rooms feel more open.

The smoked finish introduces deeper tones and natural variation, giving each board a unique and distinctive appearance.

## Installation Information

This flooring features a **tongue and groove profile**, offering a traditional and secure fit.

Suitable installation methods include:

- Floating installation with glued joints
- Glue-down installation for a more solid feel
- Nail-down installation over timber subfloors

Professional installation is recommended for the best finish, although experienced DIY installation is possible.

## Underfloor Heating Compatibility

This flooring is suitable for use with **water-based underfloor heating systems** when installed correctly.

- Maximum surface temperature: 27°C
- Gradual temperature changes are recommended
- Ensure proper subfloor preparation

Electric underfloor heating systems are not recommended unless specifically approved.

## Maintenance Overview

To maintain the natural look and performance of this flooring:

- Clean regularly using a soft brush or vacuum
- Use a damp (not wet) mop
- Apply maintenance oil periodically
- Avoid harsh chemicals and excess moisture

For best results, follow a dedicated care and maintenance guide for oiled

wood flooring.

## **Environmental & Performance Notes**

Engineered wood flooring offers a more efficient use of natural timber while maintaining the look and feel of solid wood.

- Designed for stability in changing environments
- Long lifespan with proper care
- Suitable for modern living conditions

## **Important Notes**

- Flooring must be acclimatised before installation
- Check all boards prior to fitting
- Natural variation in colour and grain is to be expected
- Not suitable for bathrooms or wet areas

## **Final Thoughts**

The Fyfield Engineered Smoked Oak flooring combines a rich, warm colour tone with a beautifully textured brushed and oiled finish. Its engineered construction and wide board design make it a practical and stylish choice for a wide range of interiors.
