Technical Specification Sheet

**Henley Engineered Golden Handscraped Distressed Oak Wood Flooring
(190mm x 20/6mm)**

Product Overview

The Henley Engineered Golden Handscraped Distressed Oak flooring offers a rich and traditional appearance, combining warm golden oak tones with handscraped and distressed detailing for a deeply characterful finish.

With its substantial 20mm construction and premium engineered design, this flooring is built to provide durability, stability, and long-term performance while delivering a striking handcrafted appearance.

Construction Details

This flooring features a premium multi-layer engineered construction, designed to provide exceptional strength, stability, and longevity.

- Top layer: 6mm solid oak veneer
- Core: Multi-layered timber or plywood construction
- Base layer: Stabilising backing layer

The thick 6mm wear layer allows for multiple refinishing opportunities over the lifetime of the floor, making it a durable long-term investment.

Finish & Surface

The handscraped and distressed surface creates a highly textured and authentic appearance.

- Handscraping enhances the natural grain and adds handcrafted texture
- Distressing creates an aged and rustic character
- Golden oak tones introduce warmth and richness
- Surface texture helps soften the appearance of everyday wear

Key Specifications

| Underfloor Heating | Suitable (see guidelines below) |
| Surface Texture | Handscraped & Distressed |
| Finish Type | Textured Surface Finish |
| Room Suitability | Living Areas, Bedrooms, Hallways |
| Commercial Use | Light Commercial |

Board Style & Appearance

The 190mm board width creates a spacious and flowing appearance, helping rooms feel larger and more open.

The combination of handscraped and distressed detailing creates a deeply textured and traditional look, while the golden oak colouring adds warmth and richness throughout the space.

Installation Information

This flooring features a **tongue and groove profile**, providing a traditional and secure fit.

Suitable installation methods include:

- Floating installation with glued joints
- Glue-down installation for a more solid feel
- Nail-down installation over timber subfloors

Due to the thickness and weight of the boards, professional installation is strongly recommended for the best results.

Underfloor Heating Compatibility

This flooring is suitable for use with **water-based underfloor heating systems** when installed correctly.

- Maximum surface temperature: 27°C
- Gradual temperature changes are recommended
- Ensure proper subfloor preparation

Electric underfloor heating systems are not recommended unless specifically approved.

Maintenance Overview

To maintain the appearance and character of this flooring:

- Clean regularly using a soft brush or vacuum
- Use a damp (not wet) mop
- Avoid harsh chemicals and abrasive cleaners

- Clean spillages promptly

The textured handscraped and distressed surface naturally helps disguise light marks and everyday wear over time.

Important Notes

- Flooring must be acclimatised before installation
- Check all boards prior to fitting
- Natural variation in colour, grain, and texture is to be expected
- Handscraped and distressed boards are intentionally uneven for a more authentic appearance
- Not suitable for bathrooms or wet areas

Final Thoughts

The Henley Engineered Golden Handscraped Distressed Oak flooring combines premium construction with a richly textured and characterful finish. Its substantial 20mm thickness, handcrafted detailing, and warm golden tones make it an excellent choice for creating traditional interiors with plenty of natural warmth and personality.
